Cassava submitted-sample report	Send the cassava report with the submitted-sample boundary.	Do not say every cassava grade or blend has the same result.
Green-bamboo test report	Send only when the buyer is evaluating the green-bamboo route.	Do not use it as evidence for ordinary cassava, tofu or algae products.
SDS for a quoted product	Confirm the exact product/formula mapping first; send the SGS SDS only when applicable.	Do not assume one SDS covers every grade or blend.
Shipment/batch compliance	Confirm destination requirements and arrange batch/product-specific evidence if needed.	Do not promise a document that has not been issued.
